SignUp4 Announces Results for Q1 FY2003

ATLANTA, GA., March 31, 2003 SignUp4, the leading provider of registration, survey and data management solutions to meeting planners and the Fortune 2000, announced its financial results for the quarter ending March 31, 2003. First quarter revenue topped prior year's same quarter results by 269%.

"We are continuing to engage and win strategic accounts," states Nick Romano, Vice President of Operations and Managing Partner. "The rate at which we are signing new clients is a continuing validation of both our products and sales efforts. They are both proving to be differentiators for SignUp4."

Q1 represented many firsts for SignUp4. New solutions were introduced to meet the expanding requirements of clients for SignUp4 products in areas of their organizations outside of traditional event planning and management. New strategic partnerships were confirmed with travel management companies and SignUp4 continues to add high profile, Fortune 100 clients to its customer base.

"We continue to remain a profitable company", confirms Romano, "and are positioned to fund our continued expansion through company revenue without external assistance. Our increasing bottom line is funding our growing sales force, marketing efforts and customer service team. We're committed to continued and proportional expansions in our customer service team as this is a fundamental differentiator for us. We're not going to do anything to inhibit our customer's access to the best support in the industry, regardless of our growth rate."
